

# Label Interactive Technologies

*A Complete Labeling Solutions Company*

## About Us

Founded in 2003 as an authorized provider of bar coded labels for one of the USA's largest retailers vendor community Label IT offered a guaranteed web based B2B solution. Working closely with our trading partners and their vendors we quickly identified the need to have an off shore printing solution for all Pac Rim production facilities and opened up a China facility in 2004. In 2006, with the support of our customer base we partnered with the below hardware, software and media supply manufacturers in order to offer complete "turn key" labeling solutions tailored to your company's requirements.

## Media Printing Solutions

### Hardware

Label IT utilizes brand name printers, scanners, applicators, verifiers, and RFID solutions hardware to ensure compatibility with your specific application needs. All are supported with a strong tech and customer service team to assist in determining what's right for your company.

### Software

Label IT offers different label formatting and producing solutions tailored to your needs. These programs are very intuitive with windows based applications and easy to use menus, label making has never been easier. Our software team can offer full support of your program and can help with any set up and installation questions.

### Media Supply

Label IT provides countless label materials and sizes to suit any application environment. Whether you need blank labels or require a custom print job our media team can work with you to choose the right materials for your needs.

### Applicators

Label IT offers a number of applicators for any industry in need of a print and apply labeling solution. With table top and in-line printing options they are very flexible and offer tamp, tamp blow, wipe-on, two sided, and corner wrap solutions.

If printing labels in-house isn't a viable option then let us "Label IT" for you!
